Post-paid ANI customers  
with credit limit

**Cyneric + Asterisk** 

 Premier + VoIP Billing + Network QoS platform & services

Your Total Billing & Network Partner Solution

## Asterisk Billing Platform

Cyneric.com offers a complete VoIP billing solution customized to your business model, fully integrated with Asterisk.

- Full integration with production Asterisk
- Real time customer definition, authentication, accounting
- Centralized operations : customers, rates, routing
- Virtual DID, Call forwarding, web callback, sms callback, voicemail, fax applications, etc

## Application uses with Cyneric VoIP Billing

**Post-paid ANI customers, with credit limit**

Based on ANI recognition or PIN, you can have customers calling to your platform, and automatically be recognized by Cyneric Billing.

### Use

- You define an access number for the customers to call
- Customer calls the access number
- Billing authenticate the ANI, and asks for destination number
- Customer enters destination number
- Billing check credit, if destination is authorized, and informs Asterisk the call is accepted/rejected
- Asterisk connects the call with the carrier
- Customer hung up, and asterisk will send accounting to billing
- Billing will rate the call, and make it available to customer web portal
- You can have post-paid customers, with limited liability
- With Cyneric Billing, you generate the invoice and send to customer (printed, email)
